“ *Neil we sure are going to miss you. You always seem to light up the room when you walked in... even if you walked in fussing. I really think a lot of you.. You are a good man.. But it was time to go home... Father was calling... your job here was done and when my job is done we will see each other again.. You are a great man we all love and respect you... Save me a seat!! We love you...*

“ Neil will be missed. He was a great man. He was always ready to help others. We had the pleasure to have him in our family for a short time. He often mentioned the owners of the chevy cafe. They were very dear to him. I have heard they were with him during the last months. It takes a loving, caring person to look after someone during a time like that. Our thoughts and prayers go out to the family and friends. From: The Lavender Family The Snow Family

“ We will miss Neil very much he was a great man and will always be a great man! He used to call me Wild Child and nothing else but that! He was loved greatly and now he is missed greatly. Tom Turner (the owner of chevys cafe) cared for him very much... she went to the hospital for almost 2 months altogether with and for him. So if anyone is to thank please thank her from the bottom of your heart! She tried and tried to help him but it failed! She was heart broken when it happened he was part of her life! Now part of her heart will always be empty! So please bare with her for the sake of her heart is on the line! Neil was a vvery nice man he was sweet,loving,caring,and also hilarios! Please make sure you will remember him and keep him in your heart!
